
Webinar “GLOHRA meets WHO-HPSR

Advancing health policy and systems research in Germany”

Date and Place

Tuesday, 2 July, 2024, 12:30 – 14:00

Online via zoom

1. Aims

The field of health policy and systems research (HPSR) seeks to understand and improve how societies organize themselves in achieving collective health goals, and how different actors interact in the policy and implementation processes to contribute to policy outcomes. Interdisciplinary by nature, HPSR aims to provide a comprehensive picture of how health systems respond and adapt to health policies, and how health policies can shape – and be shaped by – health systems and the broader determinants of health.

This webinar aims to highlight several current initiatives related to health policy and systems research in Germany, and to discuss and explore entry points for strengthening collaboration and partnerships for advancing HPSR within Germany and with international institutions.

The webinar is jointly organized by the German Alliance for Global Health Research (GLOHRA); the Department of Population Medicine and Health Services Research (AG2) in the School of Public Health at Bielefeld University; and the Alliance for Health Policy and Systems Research, an international partnership hosted by the World Health Organization (The Alliance).

2. Program

Welcome and Introduction
Prof. Johanna Hanefeld, Robert Koch-Institute and GLOHRA Steering Committee
The role of HPSR and the way forward: the Alliance for HPSR
Dr. Kumanan Rasanathan, Executive Director, The Alliance
Insights on Health Policy and Systems Research in and with Germany
Supporting HPSR in global health and international development, Dr. Lisa Hoffmann, German Federal Ministry for Economic Cooperation and Development
Applying HPSR to understand uncertainties during intersecting crises: insights from migration studies, Prof. Kayvan Bozorgmehr, Bielefeld University
Applying HPSR to understand health financing, Prof. Manuela De Allegri, Heidelberg Institute for Global Health, Heidelberg University

One Health System & its Complexity: Learnings on Whole System Approach in Translating the One Health into Action in Western India, Dr. Sandul Yasobant, IIPHG, India

Panel Discussion with Speakers and the Audience

Moderated by Prof. Johanna Hanefeld

Wrap-up and Conclusions

Prof. Johanna Hanefeld, Robert Koch-Institute and GLOHRA Steering Committee and
Dr. Kumanan Rasanathan, Executive Director, The Alliance

3. Registration
